New Jersey League for Nursing

Nomination Committee (Elected Position)

The nominations committee is responsible for soliciting and identifying individuals who may be interested in serving in an elected capacity. This individual would help prepare a slate of eligible candidates reflecting the diverse membership of the NJLN, present an annual report to the Board on the nominations, and be advisory to the Board on all matters relating to Board development.

This is also an elected position, so appointments occur once a year during the March Annual Business Meeting.
